# Praveg's Limited Q2 & H1 FY25 Financial & Operational Highlights

**Dr. Vishnukumar Patel**  
(Chairman)

“H1 FY26 has demonstrated strong top-line momentum, with consolidated total income growing 28.94% to ₹77.71 crore, driven by the continued expansion of our hospitality portfolio and consistent performance in our events and advertising businesses. While margins were impacted due to higher operating costs at newly launched properties and four seasonal properties that remained closed during Q2 FY26 and initial ramp-up expenses related to recent expansions; these effects are temporary and inherent to the scale-up phase of new destinations. In addition, profitability was affected by the fixed lease commitments payable to the Government under the PPP model for our resorts, which continue even during periods of lower occupancy in non-season months and for seasonal properties that remained closed during Q2 FY26.

With a portfolio of over 825 rooms across 17 operational resorts along with one five-star hotel, we are well positioned for sustained operational leverage. As occupancy levels mature and efficiencies normalize, we anticipate meaningful improvement in profitability metrics.

The launch of new initiatives, most notably the Praveg Adalaj Theme Park will further strengthen our growth trajectory. Our strategy remains firmly focused on disciplined expansion, operational excellence, and enhancing our eco-responsible luxury offerings. We remain confident in delivering sustainable longterm growth and creating enduring value for all stakeholders.”
